

Cybele synergy

Restoring harmony Supporting fertility

Comprehensive Support **for Fertility and Ovulation**
in **Polyendocrine Metabolic Ovarian Syndrome (PMOS)**

Cybele synergy

Polyendocrine Metabolic Ovarian Syndrome (PMOS) affects approximately 10% of women of reproductive age, presenting challenges such as irregular ovulation, hyperandrogenism, and insulin resistance. Cybele synergy offers a multi-faceted approach to managing PMOS symptoms and enhancing fertility through a unique blend of scientifically researched ingredients. This supplement aims to restore hormonal balance, improve insulin sensitivity and support overall reproductive health.

Cybele synergy - Mechanism of Action

Hormonal Regulation: Ingredients like Myo-Inositol, Chiro-Inositol and Agnus Castus work synergistically to restore hormonal balance, improve insulin sensitivity and regulate menstrual cycles. Myo-Inositol and Chiro-Inositol help modulate ovarian function and insulin signaling, critical for restoring regular ovulation. Agnus Castus acts on the pituitary gland to normalize prolactin levels, thus supporting a more regular menstrual cycle.

Insulin Sensitivity: The combination of Myo-Inositol and Chiro-Inositol in the natural 40:1 ratio has been shown to enhance insulin sensitivity, which is often impaired in women with PMOS. Improved insulin sensitivity helps reduce hyperinsulinemia, a key factor in the pathogenesis of PMOS.

Reproductive Health: The combination of Myo-Inositol and Chiro-Inositol in the natural 40:1 ratio has been shown to enhance insulin sensitivity, which is often impaired in women with PMOS. Improved insulin sensitivity helps reduce hyperinsulinemia, a key factor in the pathogenesis of PMOS.

Anti-Androgenic Effects: Spearmint essential oil reduces androgen levels, which can decrease symptoms such as hirsutism. It's anti-androgenic properties make it an effective natural option for managing excess androgenic activity in PMOS.

Antioxidant Support: Zinc and coenzyme Q10 (especially in the form of cavaQ10) provide antioxidant protection, reducing oxidative stress and supporting overall cellular health. This is particularly beneficial for oocyte quality and reproductive health.

Immune and Bone Health: Vitamin D3 supports immune modulation and is essential for calcium metabolism, impacting overall hormonal regulation and bone health.

Suggested Use: Take 10 ml of Cybele synergy daily with or after a meal. It is advisable to consult your healthcare provider before beginning any new supplement regimen, especially if you are pregnant, nursing, or have any existing health conditions.

SUPPLEMENT FACTS

INGREDIENTS	Amount per serving	RI (%)
Myo-Inositol	2.000 mg	**
d-Chiro Inositol	50 mg	**
L-Arginine (as L-Arginine HCl)	2.000 mg	**
Zinc (as Zinc citrate)	10 mg	100%
Vitamin D3 (as Cholecalciferol)	2000 IU (50 µg)	1000%
CaVaQ10® Complex	80 mg	
Equivalent CoQ10	288 mg	**
Vitex agnus-castus fruit extract	40 mg	**
Spearmint Essential Oil	3,33 µL	**

Dose: 10ml
Serving per container: 15

scientifically tested,
premium-quality ingredients
from trusted sources
for **€60/month**.

Detailed Ingredient Insights

1. Myo-Inositol (2000 mg)

Acts as a second messenger in insulin signaling, improving insulin sensitivity and ovarian function. Studies have consistently shown Myo-Inositol's effectiveness in improving ovulatory function and menstrual regularity.

Genazzani AD, et al. "Effects of Myo-Inositol in Women with PCOS: A Systematic Review of Randomized Controlled Trials." *Gynecol Endocrinol*. 2016. PMID: 26714593,

<https://pubmed.ncbi.nlm.nih.gov/26714593/>

2. Chiro-Inositol (50 mg)

Complements Myo-Inositol by contributing to insulin signaling and enhancing glucose uptake.

Nestler JE, et al. "D-Chiro-Inositol in the Treatment of Insulin Resistance in PCOS." *Endocr Pract*. 2015. PMID: 25119029,

<https://pubmed.ncbi.nlm.nih.gov/25119029/>

3. Zinc (as Zinc Citrate, 10 mg)

Essential for immune function, hormone regulation, and reducing oxidative stress, which is often elevated in PMOS.

Amini L, et al. "Zinc Status in Women with PCOS: Systematic Review and Meta-Analysis." *Biol Trace Elem Res*. 2017. PMID: 28887764,

<https://pubmed.ncbi.nlm.nih.gov/28887764/>

4. Vitamin D3 (2000 IU)

Vital for calcium metabolism, immune modulation, and has been shown to improve metabolic and reproductive features of PMOS.

Irani M, et al. "Vitamin D and Reproductive Function in PMOS: A Systematic Review." *Hum Reprod*. 2014. PMID: 24396322,

<https://pubmed.ncbi.nlm.nih.gov/24396322/>

5. L-Arginine (2000 mg)

Enhances blood flow to reproductive organs, supports nitric oxide production, and has potential benefits in improving ovulatory function.

Battaglia C, et al. "The Role of L-Arginine in the Treatment of PCOS." *Fertil Steril*. 2011. PMID: 2088795,

<https://pubmed.ncbi.nlm.nih.gov/20887959/>

6. CavaQ10 80mg (equivalent 288 mg copQ10)

Supports mitochondrial function and energy production, enhancing egg quality and overall fertility.

Xu X, et al. "Coenzyme Q10 and Its Effect on Reproductive Health in PCOS." *Reprod Sci*. 2018. PMID: 29165036,

<https://pubmed.ncbi.nlm.nih.gov/29165036/>

CAVAQ10®

Contains CAVAQ10®, a bioavailable coenzyme Q10.
CAVAQ10® is a trademark of WACKER ChemieAG

7. Agnus Castus (40 mg)

Traditionally used to balance hormones and alleviate symptoms of premenstrual syndrome (PMS) and menstrual irregularities.

van Die MD, et al. "Agnus Castus and the Management of PCOS Symptoms." *Phytomedicine*. 2013. PMID: 23642941,

<https://pubmed.ncbi.nlm.nih.gov/23642941/>

8. Spearmint Essential Oil (5µl)

Exhibits anti-androgenic effects, reducing hirsutism and improving hormonal profiles in PCOS.

Grant P. "Spearmint Herbal Tea has Significant Anti-Androgen Effects in PCOS." *Phytother Res*. 2010. PMID: 20412090]

<https://pubmed.ncbi.nlm.nih.gov/20412090/>

Cybele synergy offers a comprehensive, evidence-based approach to support fertility and manage symptoms of PMOS.

By addressing multiple aspects of reproductive health, it provides a holistic solution for women aiming to balance their hormonal profile and improve ovulatory function.

“Because every fertility journey begins with balance.”
